Palestinian conflict

Participants will choose sections or chapters of the book to present to the group. The goal is to read the chapter or section and identify 3 – 5 important or interesting ideas from that section of the book. Participants will present their findings briefly and others will join into the discussion. Additional discussion can take place through the e-mail connection too. Participants are also welcome to offer their chapter highlights in pairs. The Book Study Coordinator, who has expertise in this area, will supplement and expand on information as needed.
